Please find below and/or attached an Office communication concerning this application or proceeding.

NOTICE OF NON-RESPONSIVE AMENDMENT

The reply filed on September 28, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Newly submitted claims 50-72 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The inventions of claims 50-72 and claims 1-49 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of claims 50-72 has separate utility for managing construction-based projects including managing tasks such as team assembly, site acquisition, permit acquisition, etc. Additionally, the invention of claims 50-72 does not include bidding or managing budget/costs. The invention of claims 1-49 is also directed to project management, but does not recite any construction-related task management and does include bidding and managing budget/costs. See MPEP § 806.05(d).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 50-72 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to
